NOTICE OF PESTICIDE:

 x Registration
 Reregistration

(under FIFRA, as amended)

EPA Reg.
Number:
4822-586

Date of
Issuance:
OCT 19 2012

Term of Issuance:

Conditional

Name of Pesticide Product:

Ardvark

Name and Address of Registrant (include ZIP Code):

E. David Lewis
Agent for SC Johnson & Son Inc.
Lewis & Harrison
122 C Street, NW, Suite 740
Washington, DC 20001

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:

a. Revise the EPA Registration Number to read, "EPA Reg. No. 4822-586"

- b. Under Directions for Use (Disinfect and Sanitize) on page 2, add the wording "non-food contact surfaces".
- c. Throughout the labeling, when the word "harsh" is used in connotation with "acid, bleach or chlorine" those terms (e.g. chlorine or bleach) must be removed. The claim is comparative and can be misleading. It is misleading because such claims may lead consumers to think the missing ingredient is hazardous (and thus products that contain it are harmful and to be avoided.)
- d. Throughout the label, revise or take out the terms "all around the house" and "entire home or surfaces". Using these terms is misleading because not all surfaces within the home can be treated. The only surfaces that can be treated for this product are for non-porous hard surfaces. Either the terms must be removed or have a qualifier for use on hard non-porous surfaces.
- e. Throughout the label, the terms "molecules, elements, water and oxygen, oxy, or oxygenated" must be removed. These terms is misleading and is not permissible because it implies safety and environmental preference.
- f. On page 14, qualify "Kitchens" with "non-food contact surfaces"
- g. On page 15, the item "germ prone surfaces" must be removed. The use site is ambiguous because all of the surfaces listed in this section are prone to germs. There is no rationale as to why this particular site must be distinguished.
- h. On page 18, the claim "...won't corrode surfaces over time" must be removed. This claim is false and misleading because hydrogen peroxide is a corrosive agent.
- i. On page 19, the claim "won't bleach or discolor surfaces" must be removed. This is a comparative statement and is false and misleading. Like Sodium hypochlorite, hydrogen peroxide is also a bleaching agent.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records. Submit one (3) copy of your final printed labeling prior to release of this product for shipment. If you have any questions concerning this letter, please contact Demson Fuller at (703) 308-8062.

Sincerely,

Marshall Swindell

SECTION 3: DIRECTIONS FOR USE

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
(To open) (Rotate nozzle to (ON) (Foam) position (to open).) (Turn trigger to (SPRAY)(ON))

TO DISINFECT:

For use on hard *non food contact* non-porous inanimate surfaces. Spray surface until thoroughly wet. Allow surface to remain wet for 10 minutes and then wipe. For heavily soiled areas, a precleaning is required.

(Advisory Statements:)

Do not use on glasses, utensils, or dishes.

(Kitchen countertops and similar surfaces must be rinsed with clean (potable) water following application.)

(For surfaces that come into contact with food: Use only on hard, non-porous surfaces and rinse thoroughly with water.)

TO SANITIZE:

For use on hard *non food contact* non-porous inanimate surfaces. Spray surface until thoroughly wet. Allow surface to remain wet for 60 seconds and then wipe. For heavily soiled areas, a precleaning is required. Do not use on glasses, utensils, or dishes.

To Control, Inhibit or Prevent Mold and Mildew: Spray surface until thoroughly wet and allow to sit on surface for at least 5 minutes. Retreat every seven (7) days to keep mold/mildew from growing.

TO CLEAN:

To clean: Spray and wipe with a dry paper towel or lint-free cloth.

To clean: Spray surface thoroughly (Allow the (foaming) Hydrogen Peroxide to penetrate (the greasy stains) (grease and grime). (Wipe with a (dry) paper towel or (lint-free cloth) (wet) (dry) (sponge). (Tough stains may require longer contact time or two cleanings.)

To clean: Spray surface thoroughly. Allow foam to break down. Clean away dirt. Wipe surface dry.

(TO) DEODORIZE:

(DEODORIZE) (DEODORIZER) (DEODORIZING)

Spray until surface is thoroughly wet. (Apply) (Brandname) (this) (product) with (trigger) (sprayer) to (thoroughly) (completely) wet (all) (the) surface(s). (Let stand for) (Wait for) (appropriate) contact time (to kill) odor causing (bacteria*)(organisms*). (Rinse) (Wipe) (to) (dry) with clean cloth or paper towel (Allow to air dry) (If streaking is observed, wipe with a clean, damp (cloth or) paper towel) (For heavily soiled areas, a precleaning is required)

(ALLERGEN DESTRUCTION) (REMOVE) (REMOVES) (DESTROYS) ALLERGENS**:**

To (clean) (and) (remove) (and) (destroy) (specified) allergens**: Spray surface until it is well wet and wipe excess. (Rinse) (Wipe to dry with clean cloth or paper towel) (Allow to air dry) (If streaking is observed, wipe with a clean, damp (cloth or) paper towel)

STORAGE AND DISPOSAL:

STORAGE: Store in a cool place, out of reach of children and pets.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

(FOR CLEAR BOTTLES ONLY:)

STORAGE: Store in a cool place, out of reach of children and pets. Avoid storing in direct sunlight.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

SECTION 4: PRECAUTIONARY STATEMENTS

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals (.)

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

[Note to Reviewer: Boxed format and "bullets" as listed below will be used if label space permits; otherwise a paragraph format will be used.]

FIRST AID:

If in eyes	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to birds, fish, and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk.
